Professional Summary

Associate Support Engineer with 2+ years of experience in Mobile Device Management (MDM) and Unified Endpoint Management (UEM). Specialized in deploying and supporting on-premise and cloud-based solutions with strong exposure to distributed systems, backend services, and API integrations. Skilled in Linux-based multi-server architectures, Kubernetes, and modern enterprise mobility platforms. Adept at solving complex technical issues with a customer-first mindset.

Technical Skills

- **Platforms:** Android, iOS, Windows, Linux, macOS, IoT
- **Technologies:** MDM, UEM, EMM, MAM, KNOX, APNS, ADE, VPP, VPN, Kiosk Mode, Webhooks
- **Enterprise Tools:** SureMDM, SureIDP, SureAccess VPN
- **Development & Integration:** REST APIs, API Testing (Postman), Web Services
- **Device Ecosystem:** Android Enterprise, Apple Business Manager, Knox KME, ZTE
- **Networking:** TCP/IP, DNS, DHCP, VPNs, Proxies
- **Tools:** Postman, Google Colab, JIRA, Freshdesk, Intercom
- **Other:** Device Enrollment, Troubleshooting, Logging, Monitoring, Manual Testing

Professional Experience

Associate Support Engineer

42Gears Mobility Systems Pvt. Ltd., Bengaluru

March 2024 – Present

- Provided L2 technical support for cloud-based and on-premise MDM/UEM platforms (SureMDM).
- Designed and supported **single-server and multi-server architectures** on Linux environments.
- Worked on backend infrastructure including
- Supported **distributed system environments**, ensuring high availability and performance of enterprise solutions.
- Configured and troubleshooted Apple services such as **APNS, ADE, and VPP**.
- Implemented Android Enterprise and OEM enrollment solutions including **Knox KME and ZTE**.
- Integrated and validated **REST APIs** using Postman for automation and enterprise integrations.
- Supported secure authentication and access solutions using **SureIDP and SureAccess VPN**.
- Diagnosed complex technical issues related to device management, backend services, and policy enforcement.
- Collaborated with engineering teams on debugging, feature enhancements, and production issue resolution.
- Delivered onboarding, documentation, and technical training for enterprise customers.
- Maintained SLA compliance and improved system reliability through proactive monitoring and troubleshooting.

Education

B.E Mechanical Engineering

Apollo Engineering College, 2021

Internships & Training

- ANZ Cyber Security Simulation (Forge) – Threat analysis, packet capture investigation, and security reporting.
- HCL Training – Networking fundamentals, VLANs, routing, subnetting, and OSI model.

Skill summary

- Backend Systems, Distributed Systems, Cloud Platforms
- REST APIs, Web Technologies, API Integration
- Kubernetes, Linux Infrastructure, Multi-Server Architecture
- Mobile Device Management (MDM), Unified Endpoint Management (UEM)
- Troubleshooting, Production Support, System Reliability
